Combining these together plus what she has learnt on the way for the past 15 years helps bring about profound healing and change on all levels for those who choose to see her.***

***Jannine is teaching a workshop to teach people how to: See auras, use their knowing, feel energy, see past lives, see guides and angels - see and feel blocks in peoples energy fields - see and know how peoples internal organs are feeling!***

***She says every one has these talents and like every thing in life we just need to be shown how.***

***Come along if you are ready to open up to another side of life which exists simply on another channel.***
